DATE

Section II: Proposed Scope of Work (attach additional sheets as needed)

PROJECT DESCRIPTION AND EXPECTED RESULTS (Each application should state clearly what is proposed, why it is to be undertaken, what the expected results will be, and what the public benefit will be.)

The Richfield Public Library is a Carnegie Library originally built in 1914. The Library has been housed in the building since that time. Since 2004 when a bond failed to pass that would have built a new building, the Library Board, City Council, and community as a whole began the process of renovating and remodeling the Library. From 2007-2011, a major renovation project has been undertaken each year, including renovating both floors of the building, re-shingling the roof, re-laying exterior bricks, and rebuilding the steps at the entrances to the building. With this grant, the Richfield Public Library will be able to finish their five-year long renovation plans by repairing failing or damages plaster elements. It is assumed that much of the plaster can remain, however the failing, loose and damaged plaster is to be removed. By removing and repairing the plaster walls, the library will be able to finish the renovation projects and the plaster walls will provide attractive protection from the elements.

PARTNERSHIPS (Please list community supporters, funding agents, sponsorships, strategic alliances; applicants may attach up to five Letters of Support.)

Richfield City – Mayor Brad Ramsay
Richfield Historic Preservation Committee – Linda Fields
Utah Heritage Foundation – Susan Crook
Friends of the Richfield City Public Library – Leslie Hurd
Community Support – Woody Farnsworth

PLAN OF WORK (Outline your plan of work, include what steps are planned with specific dates and activities. Include beginning date, completion date, and source of operation and maintenance funding.)

Beginning July 1, 2012, anticipating the receipt of the Capital Facilities Grant funds, volunteers from throughout the community will begin removal of the failing, loose, and damaged plaster at the foundation and around the windows under the direction of the architect and Child Enterprises Masonry Specialists.

Section III: Project Budget
